Cable sealing set for airtight cable connection

Economical and reliable sealing of cable-to-pipe connections.

Pipe Diameter 80 to 1600 mm

Cable sealing set is suitable for use with pipelines with nominal diameters from 80 to 1600 mm.
Housing

Five different housing sizes cover the space requirement for 1 to 4 welding points (contacts) as well as all cable diameters from 9 to 17 mm.

Welding Clip

Type WG with 70 mm height adapter for use with welding clips on pipelines.

Resin

Easy to use and environmentally friendly 2 component sealing resin. Suitable for use with PE and bituminous coatings.

Order number

Cable Sealing Set

- housing with cap
- sealing material
- emery cloth
- disposable gloves
- templates for removal of PE jacket
- 2 adhesive strips for resealing the cable sleeves
